For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing/. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Additional Resources

Orangebox products

are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to: <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Air³

Air³ is a modular freestanding meeting room. Its internationally patented opening roof system features an advanced fire safety system developed specifically for sprinklered office environments.

► Specifying, pages 56–58

Louvred roof controlled by motion sensor as well as user control buttons.

Air circulation fan.

Exterior and interior side panels are upholstered acoustic panels.

Front and back panel glass are tempered glass.

Service hoop control panel side includes touch button controls for lighting, air circulation, and roof.

Service hoop power side includes three NEMA 5-15 3-prong power outlets and two data connection cutouts.

Sliding glass door can be fitted to open right to left, or left to right, at time of installation.

Service hoop horizontal bar includes three LED lights, two heat detectors, monitor sensor, and fan.

Pod Dimensions							
	External Dimensions			Internal Dimensions			
	Depth	Width	Height	Depth	Width	Height*	Weight
OB1AIR23	5' 6"	9' 2"	8' 4"	5' 1"	8' 7"	7'	1017 lb
OB1AIR25	9' 9"	9' 2"	8' 4"	9' 5"	8' 7"	7'	1313 lb
OB1AIR27	14' 5"	9' 2"	8' 4"	14' 1"	8' 7"	7'	1738 lb

Tip: Minimum height recommended for a sprinkler covered space is 9'3" to allow for 18" clearance between the top of the open roof blade and a sprinkler head above it. These are recommendations as it is still up to the local authority having jurisdiction to identify their building requirements.

**Internal height when roof blades open is 6'9".*

Table Dimensions				
	Depth	Width	Height	Weight
OB1AIR30	69"	45"	29"	56 lb
OB1AIR35	24"	61"	29"	47 lb

Product Details

Fabric panel layer numbering begins from the bottom position.

Air23 configuration

Air25 configuration

Air27 configuration

Air29 configuration

Panel positions account for both glass and fabric panels and are determined when standing outside of the pod with a right to left opening door.

Optional whiteboards can be installed in place of internal fabric panels on layers 3 and 4. Dimensions are 50³/₄" x 34³/₄".

Monitor brackets are available in two different styles and both support a monitor up to a maximum weight of 55 pounds:

- Over upholstery monitor brackets—mounted directly to the fabric panels on layers 3 and 4.
- Hoop mounted monitor brackets—attached to the power side of the service hoop.

Space Layout Constraints

Do not obstruct exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

Electrical Connections

All Air³ units come standard with a 3-prong, 9' electrical cord. However, the units can be hardwired at installation. If hardwired, the hardwired connection must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

The assembly directions and user guide describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

Power usage when occupied is 100W (not including any plugged-in external equipment) per hoop.

Electrical Components

The service hoop contains all the electrical services, including power, lighting, and airflow.

Service hoop horizontal bar includes three LED lights, two heat detectors, motion sensor, and fan.

Work

Lux level at table height: 450-850
Center light: 100%
Outer light: 100%

Think

Lux level at table height: 120-400
Center light: 50%
Outer light: 20%

Present

Lux level at table height: 50-60
Center light: 20%
Outer light: OFF

Three LED lights are used for illumination. The lights are 4000K with a max brightness of 1300 lumens.

Passive inferred (PIR) motion sensor turns on the power to the pod when activated. Power is shut off within the pod after five minutes of inactivity.

Primary heat detector will cut all power in the pod and open the roof fully if heat at 135°F (57°C) is detected.

Secondary heat detector acts as a failsafe fusible link and will cut all power in the pod and open the roof fully if heat at 150.8°F (66°C) is detected.

Service hoop power side comes standard with three NEMA 5-15 3-prong power outlets, two data connection cutouts, and two cable ports with removable center grommet for cable management.

Service hoop control panel side includes touch button controls for lighting, air circulation, and roof.

The patented louvred roof has three settings: fully open, semi open, and closed. When the pod is unoccupied, the roof is always open. When entering the pod, the passive inferred sensor (PIR) senses movement and closes the roof to create acoustic privacy. When the pod is occupied, it is possible to select either 10° (semi) or 90° (fully) open position manually for enhanced airflow. The PIR turns the power off after five minutes and the roof automatically opens.

Occupancy sensor activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering.

Airflow and Handling

Ventilation fans are rated at 330 cubic feet of air per minute (CFM) and 23 dBA.

Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.

Building and Fire Code Compliance

Seismic considerations: For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

Fire suppression: Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

Fire alarms: National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

Energy efficiency: ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

Campers & Dens

Camper

Louvered roof is controlled by a motion sensor as well as user buttons.

Service hoop control panel side includes touch button controls for lighting, air circulation, and roof. Control panel side of the hoop is on the door side.

Service hoop power side includes 3 NEMA power outlets as standard. USB A & C and Data and HDMI can be selected as an option. Power side of the hoop is opposite of the door.

Service hoop horizontal bar includes LED lights, smoke detector, motion sensor, and fan.

Frame comes standard in 7207 Black paint.

Exterior side panels come with fabric, laminate, or plywood.

Fascia is available in paint or fabric.

Exterior contrasting panels can be selected where one panel per wall can be a contrasting fabric, laminate, or plywood.

Door handle is available in natural oak or black oak.

Power access is through floor or ceiling.

Air circulation fan comes standard.

Interior wall panels default to fabric. One panel per wall can be a contrasting fabric or laminate. Interior panels cannot have two hard surfaces meet at corners.

Panel glass has three different glass configurations available. Glass is 8 mm tempered glass.

Tip: Styles ending with an NB will have a glass infill on the front of the unit to offset the door from the side wall by 12".

Sliding glass doors, right- or left-handed style numbers available. Handedness is indicated by door position when facing unit.

HACK13	53 1/2"	164 ² / ₅ "	90"

Product Details

Panel specification: internal and external panels can be specified by wall or by individual panel. If contrasting is selected, only one panel per wall can be contrasting.

CD02 styles

CD05 styles

CD02 style

CD05 style

Tip: Only a single panel will be specifiable as contrasting.

Corner glass will replace single interior and exterior panels.

For **CD02CLS**, the glass will replace interior wall 3, panel C and exterior wall 3, panel A.

For **CD02CRS**, the glass will replace interior wall 1, panel A and exterior wall 3, panel C.

For **CD05CLS**, the glass will replace interior wall 3, panel D and exterior wall 3, panel A.

For **CD05CRS**, the glass will replace interior wall 3, panel A and exterior wall 3, panel D.

CD05 style with an NB suffix have a glass infill on the front of the camper that offsets the door by 12". This infill allows for the unit to be AODA compliant in Ontario, Canada.

Campers & Dens

Kink

Interior and exterior are available in laminate, fabric, or plywood.
Tip: Kinks can only be applied to the front door wall. Handedness matches the door opening direction.

Frame comes standard in black paint.

Campers & Dens

Cabin

Campers & Dens

Cabin is only available on the back side (wall 2) of the camper.

Campers & Dens

Awning

Frame is available in black paint.

Tip: Awnings can attach to any wall of a camper, including the front.

Awning accessories total maximum loading is 44 pounds.

Plywood slats.

Foot is available in natural oak or black oak.

Top is available in sheer fabric or cord.

Sheer fabric.

Side is available in sheer fabric, cord, PET slats, or plywood slats.

Cord.

Hacking

Hackings are made out of poplar plywood.

The slat design is available with straight or wavy slats. Straight slats are shown.

Tip: Hacking cannot cover door or share wall with cabin, kink, or awning.

Tip: Full depth hacking cannot be applied on back wall.

Up to Glass Corner

Full Pod Depth

Around Corner

Up to Glass Corner

Full Pod Depth

Around Corner

Wavy slats.

Campers & Dens

Tables

Tables come standard with a blade edge.

Tables can be mounted on the camper center panel(s) or mounted on the hoop.

Small Wall Mounted Table

Medium Wall Mounted Table

Lounges

Lounges are freestanding and work well within the camper, cabin, or other adjacent settings.

Single

Contrasting fabric is available between the seat, the inner back, and the outer back.

Double

Campers & Dens

Monitor Brackets

Mount height is flexible and can be determined during the installation.

Maximum monitor weight is 100 pounds.

Monitor brackets can mount to the interior or exterior of the camper.

All monitor brackets are suitable up to a maximum Video Electronics Standards Association (VESA) Pattern of 640 mm width and 400 mm height.

Hoop mounted monitor bracket attaches to the hoop.

Panel mounted monitor brackets center on a panel.

Space Layout Constraints

Do not obstruct exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" (457.2 mm) of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

The product contains a magnet in the door-post assembly.

Electrical Connections

The camper includes a 9-foot cord attached to the power side of the hoop on the outside of the pod powering the pod and one set of outlets on the interior power side of the camper. Power cords can accommodate either floor or ceiling sources. All power cords can be rerouted to the inside of the pod for floor power located inside the pod.

The power placement in the floor should be located on the exterior of the camper on the power side of the hoop. The power cord can be re-routed to the inside of the camper, if required, at installation. Additional floor power is required for accessories in awning and cabin.

The assembly directions and user guide describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC. Power usage when occupied is 100W (not including any plugged-in external equipment) per hoop.

Electrical Components

The service hoop contains all the electrical services including power, lighting, and airflow.

Power Options

Power is located on the power-side of the interior of the service hoop. This is the side that is opposite of the camper door.

Tip: The hoop can be reversed at installation so that the power is located on the same side as the door.

The standard includes three power outlets. The power is located beneath the worksurface. USB A+C can be added as an option in place of one of the power outlets.

	Standard	Optional
Power Outlet		
Isolator Switch		

HDMI, data ports, and cables can be added as an option. If selected, these ports are located on the service hoop at the worksurface height.

Building and Fire Code Compliance

Seismic considerations: For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations. Seismic bracket kit is available with style number **OB1CDSBK**.

Fire suppression: Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

Fire alarms: National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

Energy efficiency: ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

On the QT

On the QT phone booths were designed to provide compact enclosed space in open plan workspaces to allow work to be carried out more effectively with reduced distractions.

► Specifying, pages 142–150

Frame constructed of aluminum.

Cover caps frame the glass door and glass wall. Available in a range of paint finishes.

Front and back panel glass are clear laminated glass.

Occupancy light illuminates red when booth is in use.

Fan built discretely into the roof panel.

Interior cladding is polyester felt.

Lighting positioned near the front of the booth for optimal work lighting.

Front and rear cladding is laminate as standard, with option of fabric, painted steel, plywood, or whiteboard.

Threshold height is 5" min to 7" max.

Seat designed with ergonomic focus to promote comfortable longer term use.

Tablet included as standard.

Angled seat face creates a comfortable pivot space to enter the booth and sit.

Phone Booths								
	External Dimensions					Internal Dimensions		
	Depth	Width	Height	Weight*	Shelf Height	Depth	Width	Height

*includes plywood cladding

Product Details

Left hand (LH) and right hand (RH) are determined by the location of the door hinge when entering the booth.

Front and rear are determined based on the user seated position. "Front" will indicate the wall the user faces, while "rear" will indicate the wall behind the user.

Baffles can be optioned to add an additional layer of visual and acoustic privacy. These fully upholstered baffles are available as a privacy screen or lean pad.

Privacy screens install to the front of the phone booth and sit above worksurface height.

Lean pads install to the rear of the phone booth and sit at shoulder/head height.

Shelf can be specified in both the short and tall phone booths. When specified, the shelf height is 28³/₄" in the short booth and 41³/₄" in the tall booth.

*Tip: Shelf should not be optioned if an On the QT furniture unit (**OB1QTF01** or **OB1QTF02**) is specified.*

L-shelf can be specified in the tall phone booths only. When specified, the shelf height is 41³/₄".

All worksurfaces come standard in High-Pressure Laminate.

Contrasting upholstery option available on lounge furniture units with four specifiable upholstery surfaces.

Each furniture unit comes standard with an integrated worksurface in laminate.

Occupancy light is available as an option. When the phone booth is in use, the occupancy light will illuminate red. When not specified, illumination will not occur.

Do not obstruct exit corridor. Ensure visibility to on site alarm strobes is not blocked. If sprinklers are not required interior to the unit, be advised that local codes typically prohibit obstructions within 18" of the existing building sprinklers. Ensure final placement of the unit does not block airflow inlets or outlets of the building or unit ventilation systems.

Electrical Connections

Hardwired units: Electric power is delivered through a hardwired connection which must be routed to a junction box in the floor, wall, or ceiling via a conduit whip. Orangebox does not provide the conduit whip to make the power connection to the building. It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

The assembly directions and user guide describe the enclosures which contain the electrical services such as power, lighting, and airflow. Lighting, fan, outlets, and sensors share one circuit within the unit. The enclosure may accommodate a single 15 Amp connection. The maximum loading of the components within the enclosure is 1.8 Kilowatts at 120 VAC.

Cord and plug units: The unit is provided with a flexible power cord which is to be plugged directly into a building's hardwired electrical receptacle. A minimum spacing of 4" between the receptacle and the assembled unit is needed to protect the plug from damage.

Total cord length is 12' from the point of connection at the power distribution unit (PDU). Exposed length will be dependent on exit location.

Short phone booth:

- 116" when exiting from front
- 77" when exiting from rear

Tall phone booth:

- 103" when exiting from the front
- 64" when exiting from the rear

Power usage: when occupied is 30W (not including any plugged-in external equipment).

Electrical Components

Occupancy sensor activates the lights and fan. The sensor operates at low voltage and utilizes both ultrasonic and infrared sensing to avoid false triggering. Three minutes after the booth is vacated, all features will power down.

One LED light panel is used for illumination. The light is 3000K and 450 lux at worksurface height.

When selected, unit includes two power outlets, one USB A, and one USB C port. Each outlet will supply 3 Amps max with a total of 4.5 Amp max draw collectively.

An isolator switch is located directly below the power outlets and can be used to turn off all power to the booth.

Airflow and Handling

The air handling ventilation system is designed to provide a minimum of 10 air changes per hour when the unit is occupied, per Business & Institutional Furniture Manufacturer's Association (BIFMA) Guidance for Pods (2020) and American Society of Heating Refrigerating and Air Conditioning Engineers (ASHRAE) 111 Testing, Adjusting, and Balancing of Building HVAC Systems.

On the QT has been designed to perform 35 (short booth) and 30 (tall booth) air changes per hour (ACH).

Ventilation fans are rated at 21.9 CFM and 21.5 dBA.

Tip: Fan CFM ratings alone cannot be used to determine the actual system ventilation rate.

Building and Fire Code Compliance

Seismic considerations: For seismic considerations, the building's Structural Engineer of Record (SEOR) must be consulted. Seismic structural analysis report prepared by a licensed professional engineer may be required for specific locations.

Fire suppression: Sprinkler requirements are an important consideration for product assembly. Local codes may impact the number and location of mandated sprinklers. It is important to check with the local authorities to ensure product installation meets local requirements. If required, sprinkler location options within the unit are identified in product-specific assembly directions.

Fire alarms: National Fire Protection Agency (NFPA) 72 requires a fire alarm to be at least 15 dB above ambient to ensure occupants can hear the alarm. This is an on-site requirement. This may require a visible and/or audible notifier within the unit. If the unit is equipped with a fire detection system, some jurisdictions may require it be connected to the building's fire detection system.

Energy efficiency: ASHRAE 90.1 and California Energy Commission (CEC) Title 24 identify lighting controls and power density requirements. This is an on-site requirement. Ensure this unit in its final environment adheres to these standards by confirming with local authorities.

PerfectMatch

PerfectMatch is a service that allows you to create your own paint color. Refer to the *Surface Materials Reference Guide* for more information about this program.

Aspect

Aspect is a high back, semi-enclosed sofa line.

Aspect sofas can be connected via a screen to create semi-private working booths with power and media capabilities.

► Specifying, pages 152–166

Aspect booths are available for two, four, and six person configurations.

This product does not use glue due to environmental impact. Because of this, occasional dressing of the upholstery may be required.

Optional hanging monitor bracket holds monitors up to 32".

Legs are 8" high with glide feet adjustable up to 1/2".

Aspect sofas are available in 1-seat, 2-seat or 3-seat configurations, ranging from 41" to 87" in length.

Wire channel and grommet are located in upper screen for cable management.

Optional power outlet is located here on all booths.

Upper surround is manufactured on lower unit and will not separate from lower surround.

Table tops are 1" thick laminate with 8 mm edge. The table is tapered on the four and six person units to allow ease in exiting and entering the booth.

Product Details

Two-tone contrasting upholstery option is available through specifying inner and outer contrasting colorways.

Tip: Inner/outer selection must stay in the same fabric family.

Patterned fabric works best when specified on the seat only. Patterns should be avoided on the upper and lower body due to predominant double stitch seams making pattern matching unachievable.

Reveal seam matches seat as standard but can match body finish or "other." Other allows specification to be independent of the seat and body finish selection.

Tip: Reveal seam not allowed to match seat when patterned.

Tip: Reveal seam may only be vinyl if body is also vinyl.

Power and Media

Power integrated in lower screen when optioned on media den units.

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

72" cord length exits through bottom of lower screen and comes fitted with a standard NEMA 5–15 plug.

Tilting monitor brackets available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

Wire channel and grommet are located in the upper screen for cable management.

Sully, Ramsey, and Skomer

Sully, Ramsey, and Skomer are fully upholstered chairs designed to work together in small clusters or as part of larger configurations.
► Specifying, pages 170–174

This product does not use glue due to environmental impact. Because of this, occasional dressing of the upholstery may be required.

The curvature of the back is open to accommodate many body types and postures.

Casters with no brakes are standard. Casters with brakes are available. 2½" multi-directional casters are suitable for all floor types.

Seat height is 18", optimized to be used with most 28" tables.

The integrated upholstered arms are designed to support the body and side sitting postures.

Actual Dimensions

	Depth	Width	Height	Weight	Seat Depth	Seat Height
OBSSULLY01	21"	21"	19"	18 lb	16"	18"
OBSRAMSEY01	26"	23"	32"	29 lb	19"	18"
OBSSKOMER01	26"	26"	32"	34 lb	19"	18"

Product Details

Sully is a mobile, fully upholstered ottoman.
Ramsey is a mobile, fully upholstered lounge chair.
Skomer is a mobile, fully upholstered arm chair.

Two-tone contrasting upholstery is available as an option by selecting fabric areas independently (excludes Sully).

Option 1—seat and back.
Tip: If two-tone upholstered option one is selected, contrasting price groups are available. Total seat finish and back finish price is driven by highest price group selection.

Option 2—seat and outer back with contrasting inner back.
Tip: If two-tone upholstered option two is selected, contrasting price groups are not available. Total seat and outer back finish and inner back finish must come from the same finish family.

Border

Border is an upholstered bench with an attached table that transforms small vestibules, landings, and hallways into places where people gather.
► Specifying, pages 176–182

This product does not use glue due to environmental impact. Because of this, occasional dressing of the upholstery may be required.

Table top available in 32" or 40" diameter with square edge standard or tapered edge option.

Foot rail 11" high. Low units do not have foot rail.

Single seat units available with centered, left-, or right-sided tables.

Optional power is located in table base column above bench seat.

Available at seated (low, 18") and café (high, 30") bench heights.

Table top height is 42½" (low units) or 50" (high units) from the floor.

Plastic glides set unit 7/10" from floor.

Actual Dimensions

	Description	Depth with Table	Width	Height	Weight	Seat Depth	Seat Height	Table Height
OBORDER01	Low Single, Centered Table	42½" or 50"	47"	30"	80 lb	16"	18"	30"
OBORDER02	Low Double Table	42½" or 50"	94"	30"	111 lb	16"	18"	30"

OBORDER05	High Double Table	42½" or 50"	94"	42"	146 lb	16"	30"	42"

Product Details

Border combines an upholstered bench and a worktable at both work (low) and café (high) heights. The single (one seat) units are available with a center, left, or a right sided table. The double (two seat) units have a centered table.

The chrome footrest on the high units is 11"H.

The bent design attaches from the underside of the bench with added braces for stability. The footrest is not on the low height units.

Black glides provide protection for flooring and set the unit $\frac{7}{16}$ " from the floor.

The rounded integrated table is available in 32" diameter (standard) or 40" diameter with two edge styles: square (standard) or tapered. The table surface is 1" thick HPL with a 3 mm matching edge band.

Optional power is embedded in the table base column with several module choices available. The power outlet is conveniently located on the bench side of the table base column providing easy access and is hidden from view. Power is not available in the tabletop due to the presence of a mounting plate.

The power node is available with the following operations and in multiple cover plate finish colors.

- 2 power outlets.
- 1 power, 1 dual USB-A outlets.
- 1 power, 1 HDMI outlets.
- 1 power, 1 CAT6 data outlets.

120" power cord length exits through the bottom of the table base and comes fitted with a standard NEMA 5-15 plug.

Optional contrasting upholstery can be applied to the seat and table base. The table base and seat can be different price groups. If two-tone upholstery is selected, contrasting price groups are available. Total seat finish and table base finish price is driven by highest group selection.

* AD-61LA, AD-61RA, AD-62LC, AD-62RC, AD-71, and AD-72 tables are not available as standalone styles. Please refer to Away from the Desk specifying pages for styles that have AD-71 and AD-72 tables available as an option.

Power and Media

Round power modules are available as an option on table tops, table bases, and arm:

- 2 power outlets
- 1 power, 1 dual USB-A outlets
- 1 power, 1 HDMI outlets
- 1 power, 1 CAT6 data outlets

Table mounted power is available as an option for booth style numbers:

- 4 power outlets
- 2 power, 1 CAT6 data, 1 dual USB-A outlets
- 2 power, 1 CAT6 data, 1 HDMI outlets
- 2 power, 2 CAT6 data outlets

120" cord length exits through base of the tables and arms and comes fitted with a standard NEMA 5-15 plug.

Tilting monitor brackets available as an option on media den units. Monitor bracket supports a single screen up to 32" and 44 pounds.

Application Topics

Handedness of units and connection points are determined based on the user sitting position.

Arms can only connect to the outer most ends of a configuration.

Tables can connect to the center of a single unit or at the junction between units.

Dedicated tables AD-71 and AD-72 can only be specified for use with 90° and 120° units respectively.

Surface Materials

Contrasting upholstery option possible through specifying each surface independently.

The four main upholstery surfaces are:

- Seat
- Backrest inner
- Backrest outer
- Screen

Patterned fabric works best when specified on the seat or inner back only. Patterns should be avoided on the outer back and screen due to predominant double stitch seams making pattern matching unachievable.

Away from the Desk is upholstered utilizing the width of fabric rolls. This means when a pattern is specified it will always lie railroad.

The use of patterned fabrics on curved units may result in the "chevron effect". This effect is apparent at the seam of two fabric panels that run in different directions.

Edge profile is tapered as standard on tables and tablets.

Table tops

- Fiber HPL
- Micro HPL
- Patina HPL
- Solid HPL
- Speckle HPL
- Textured Woodgrain HPL
- Woodgrain HPL
- Textured Industrial HPL
- Open Line laminate

Upholstery

- Fabric
- Customer's Own Material (COM)

Tip: This product does not use glue due to the environmental impact. Because of this, occasional dressing of the upholstery may be required.

Power

- 4118 Warm Platinum
- 7015 Silk Textured
- 7207 Black

Cubb Seating

Cubb seating is available in four bases with a single upholstered seat and three arm options.

► Specifying, pages 250–263

Upholstered arms are 7.4" above the seat.

Wood legs made of solid white oak with glides.

Metal chassis secure legs to each other as well as seat shell.

Wire arms designed to complement wire frame base. Wire frame arms are 7.2" (183 mm) above the seat.

Wire frame arms are 1/2" tubular steel.

Wire frame sled base is 1/2" tubular steel with plastic glides suitable for all surfaces. Available in both chair and stool heights.

Seat shell is gently curved, offering integrated lumbar support.

4-star trestle base swivels 360° with hard glides as standard. Soft glides available.

Gas lift allows for travel up to 5" of seat height adjustment.

5-arm base swivels 360° with hard casters for use on carpet are standard. Soft casters are available.

Casters are 2 1/2" in diameter. Hard casters for use on carpet as standard.

Product Details

Cubb seating utilizes the same core seat with a combination of two arm options and four base styles.

Cubb seating comes fully assembled and does not stack.

All chair seating has a seat height of 19" optimized to work with standard height tables.

Stools have a seat height of 30".

Both the trestle and five-star base options swivel 360°.

Featuring a modified back and seat without arms, the fully upholstered Cubb Stools are available in both the wood leg and wire frame base.

Cubb stools have a 30" seat height from the floor and are 39" tall overall.

A foot rail cover is available as an option on wire base stool. The foot rail cover is made of black PVC.

On the wood stool, the foot rail finish will match that of under seat chassis.

The occasional stool features three tapered solid oak wood legs with an upholstered cushion top. It has a seated height of 19".

The two-seat bench has four tapered solid oak wood legs with an upholstered oval shaped top. It has a seated height of 19".

Two-tone contrasting upholstery option is available.

Tip: If two-tone upholstered option is selected, contrasting price groups are available. Total seat finish and outer seat finish price is driven by highest price group selection.

Cubb Tables

Cubb tables are a distinctive range of meeting and project tables with a laid-back, informal feel—great for any environment.

► Specifying, pages 266–286

Meeting tables sit 29"H and are available in widths ranging from 35" to 177".

Worksurface available with tapered edge detail as standard.

Metal chassis secure legs to each other as well as worksurface.

Project tables stand 41 $\frac{3}{8}$ "H and are available at 63", 82 $\frac{1}{16}$ ", or 102 $\frac{3}{8}$ "W.

Footrail designed to match the finish of the metal chassis.

Leg channel allows for cables to be managed seamlessly through any leg.

Cables provide additional stability and support.

Product Details

Edge profile is tapered as standard.

Integrated power available in all meeting and project table workspaces. All power cords are 10' long and available with either a standard three prong NEMA plug or hardwire.

Round meeting tables can accept a single centrally located round face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 USB A+C outlets

Square meeting tables can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 USB A+C outlets

Small, rectangular meeting tables can accept a centrally located rectangular face power unit in the following configurations:

- 2 power outlets
- 1 power, 1 USB A+C outlets
- 3 power, 1 USB A+C outlets
- 2 power, 2 USB A+C outlets
- 3 power, 1 USB-C outlets

Medium and large rectangular meeting tables can accept multiple rectangular face power units in the following configurations:

- 2 power outlets
- 1 power, 1 USB A+C outlets
- 3 power, 1 USB A+C outlets
- 2 power, 2 USB A+C outlets
- 3 power, 1 USB-C outlets

Center only

Left and center

Left and right

Left only

Left, right and center

Center and right

Right only

When multiple power units are specified, power location can be left, right, or center of the table.

Tip: Location and quantity allowed is dependent on the style number.

Wiring and Cabling

Wood legs designed with a channel for seamless cable management. Each leg come standard with a channel and rubber riser insert (black).

When multiple power units per table are specified, Interlink daisy chaining will come standard with a single plug located at the end of the configuration.

Multiple hardwire power units per table do not daisy chain and require independent connections.

Additional cable management options are available through specification of a set of cable clips or a vertical cable carrier, AHCC.

Surface Materials

Worksurface

- Fiber LPL
- Solid LPL
- Woodgrain LPL
- Fiber HPL
- Micro HPL
- Patina HPL
- Solid HPL
- Speckle HPL
- Textured Woodgrain HPL
- Woodgrain HPL
- Textured Industrial HPL
- Open Line laminate

Woodgrain laminate on single-piece tables will always be oriented at 0° with the grain direction running parallel with the length of the table top.

Woodgrain laminate on multi-piece tables will always be oriented at 90° with the grain direction running perpendicular with the length of the table top.

Woodgrain laminates cannot be grain matched.

Wood leg base

- 31WK Medium Walnut on Oak
- 3652 Dark Distressed Oak Stain
- V3AK Natural Oak
- VP03 Black Oak

Metal chassis

► Specification Information, on next page

Tip: When specifying your camper, please make sure the "kink option" and "cabin option" are entered correctly. For the "kink option" select "with kink" if you plan to add a kink to the camper and "no kink" if you don't intend to add a kink on the camper. Likewise, for the "cabin option", please select "with cabin", if you plan to attach a cabin to the camper and "no cabin" if you don't plan to attach a cabin.

Campers 115"W x 119"D Corner Glass

► Need help?
Product details,
page 20

Standard Includes

- Camper: 115"W x 119"D corner glass front—left hand
- Frame: 7207 Black
- Glass: 6500 Clear Glass
- Door handle pull: wood price group 1
- Power plug: type B
- Power outlet: 3 NEMA power outlets
- Fascia: paint price group 1
- Air circulation fan

Required to Specify

- 1 Style number
 - 2 Fascia type
 - 3 Wood color number for door handle pull
 - 4 Paint color number for fascia
 - 5 Options, if selected (see below)
- See Product Understanding for Surface Materials.

Tip: When specifying your camper, please make sure the "kink option" and "cabin option" are entered correctly. For the "kink option" select "with kink" if you plan to add a kink to the camper and "no kink" if you don't intend to add a kink on the camper. Likewise, for the "cabin option", please select "with cabin", if you plan to attach a cabin to the camper and "no cabin" if you don't plan to attach a cabin.

Campers 88"W x 92"D Corner Glass Front

► Need help?
Product details,
page 20

Standard Includes

- Camper: 88"W x 92"D corner glass front—right hand
- Frame: 7207 Black
- Glass: 6500 Clear Glass
- Door handle pull: wood price group 1
- Power plug: type B
- Power outlet: 3 NEMA power outlets
- Fascia: paint price group 1
- Air circulation fan

Required to Specify

- 1 Style number
 - 2 Fascia type
 - 3 Wood color number for door handle pull
 - 4 Paint color number for fascia
 - 5 Options, if selected (see below)
- See Product Understanding for Surface Materials.

Campers 115"W x 119"D Corner Glass Front

► Need help?
Product details,
page 20

Standard Includes

- Camper: 115"W x 119"D corner glass front— right hand
- Frame: 7207 Black
- Glass: 6500 Clear Glass
- Door handle pull: wood price group 1
- Power plug: type B
- Power outlet: 3 NEMA power outlets
- Fascia: paint price group 1
- Air circulation fan

Required to Specify

- 1 Style number
 - 2 Fascia type
 - 3 Wood color number for door handle pull
 - 4 Paint color number for fascia
 - 5 Options, if selected (see below)
- See Product Understanding for Surface Materials.

Standard Includes

- Frame assembly:
 - aluminum framework
 - acoustic wall cassettes
 - roof and floor panels (black)
- Carpet
- One set of framed laminated glass, door, and wall
- One solid oak door handle
- Two laminate cladding exterior walls: High-Pressure Laminate price group 1
- Cover cap: paint
- Two pressed felt interior cladding walls
- Integrated lighting and air ventilation, with motion sensor

Required to Specify

- 1 Style number
 - 2 High-Pressure Laminate color number for walls
 - 3 Wood color number for door handle
 - 4 Paint color number for cover cap
 - 5 Options, if selected (see below)
- See Product Understanding for Surface Materials.
